*Merry Christmas
&
Happy New Year*

UPDATE - December 2009

In this Issue:

- **Christmas and Holiday Greetings to all my constituents**

Dear Friends,

Unbelievably I have been in Lansing for almost a year, and the time has come to wish each and everyone of you a Merry Christmas, or Happy Holiday for whatever your personal belief is, and to hope that we all will enjoy a more prosperous New Year.

We know that the state still faces deep issues, but this month at least there was a slight improvement in the unemployment figures which we hope will continue.

The year has given an opportunity for the freshmen legislators who joined me in Lansing last year to start forging friendships and getting to know each other and we are working well together, which gives us all hope for the future.

I'm keeping this short, so my best wishes to all for a happy time over the next couple of weeks. Please feel free to share this wish from me with others.
